TRAPDOOR · CHECKLIST

Typed your card into a toll-text page? Do this now.

In this order. The first two matter most, because the scam's real goal is getting your card into the criminal's phone wallet.

1. ☐ **Call your bank on the number on the back of the card.** Say you entered it on a scam site. Ask them to lock it and issue a new number. Don't use any number from the text.

2. ☐ **Ask the bank to remove every Apple Pay or Google Wallet copy of the card you don't recognize.** Deleting the card from your own phone doesn't remove it from theirs.

3. ☐ **Never read out or type a one-time code you didn't ask for.** Read verification texts to the end: a code "for a purchase" may say it's for adding your card to a new device.

4. ☐ **Go through recent transactions and dispute anything you didn't make.** Small test charges come first. Check again over the next few weeks.

5. ☐ **Report it** at **ReportFraud.ftc.gov** and the FBI's **ic3.gov**, and forward the text to **7726** (SPAM). Then delete it.

6. ☐ **Gave more than a card** (your Social Security number, a bank login, a password)? Follow the recovery plan at **IdentityTheft.gov** and change any reused passwords.

Watch where you step.
